ÉDITO

Olivier Perrin
Head of the Bachelor
in Green Ag-Business

In a time when the green job market is booming and in a bid to meet current economic and environmental challenges, UniLaSalle is launching its Bachelor in Green Ag-Business aimed at providing agricultural and food industry businesses with trained professionals capable of contributing

to their ecological transition. This hybrid program will equip students with a combination of scientific and business skills focused on agricultural industries all the while seeking to promote sustainability. It will provide access to job opportunities both in France and around the world.

If you dream of a career that addresses changes affecting our society as well as the major, urgent challenges facing the world, then this unique and innovative program is for you.

See you next september.

Learn from business for business...

Immersion in the business world plays a key role throughout the program with a 4-week international working internship between the first and second year and a 6-month final year internship at the end of the program. The final year can also be completed under the status of apprentice, which permits the student to receive a salary and not to have school fees to finance.

CAMPUS

The students will follow their training on a modern campus at gates of Paris and they will be able to benefit from the technological and experimental platforms of the campuses of Beauvais and Rouen.

CHOOSE France

Discover the French "art de vivre" and gastronomy. Learn French, the world's most commonly spoken language by 2050 (Natixis 2018).

Career

Career opportunities you can take after the program :

- Export sales representative
- Food department manager
- Business consultant
- Import - Export administrative assistant
- International Business Developer

Admission Criteria

First year : students in the final year of a general French baccalaureate specializing in economic and social sciences, physics/chemistry, biology-ecology, life sciences, or political science/ languages, mathematics/digital technology, information science, history-geography. International applicants who hold an equivalent qualification. Proficiency in English; equivalent B1+

Tuition fees

Student status: **€7,900**

Apprenticeship status: **€9,180**

Third year tuition fees for students completing work-study programs are paid by the company. Campus fees may apply.
